## Concept

"... the church is fading fast due to the inertia of ...."  
(Tomas Halik in 'The Afternoon of Christianity')

How are we, the shepherds-priests and consecrated persons-called to respond to the pressing challenges of our time? Can we afford to remain complacent or silent while the faith, the Church, and the people of God face mounting struggles?

This workshop seeks to create a dynamic platform for honest reflection and dialogue. Together, we will explore contemporary issues with clarity, objectivity, and spiritual depth-seeking not only understanding but also concrete solutions and actionable paths forward. It is a call to courage, responsibility, and transformative leadership in the service of God's people.
